PROFILE

With a robust background in Architecture and Management, I have successfully transitioned into the IT field, enhancing my expertise through targeted certifications. My goal is to integrate my architectural and managerial experience with my newly acquired Product design skills to drive innovation and support organizations in achieving their technological ambitions. I bring a strong proficiency in UI/UX design, ensuring user-centered and aesthetically pleasing digital experiences, to the table. I am passionate about the opportunities ahead and committed to continuous self-development and professional growth.
